## Database Weekly

Issue 183 — December 8, 2017

**SQL Window Functions Tutorial for Business Analysis** — A look at the art of solving common business analysis problems (e.g. revenue growth, running totals) with SQL.

ALEX YESKOV

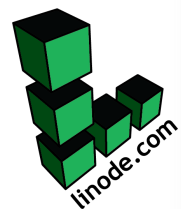

**AntidoteDB: A Transactional Database with Strong Semantics** — Provides features that aid programmers to write 'correct' applications while being able to scale up to large geo-replicated deployments with Causal Highly-Available Transactions. It's open source and built in Erlang.

THE SYNCFREE CONSORTIUM **TOOLS**

**Postgres 11 To Add Support for 'SQL Procedures'** — Work on the next major version of Postgres is underway with the latest addition being support for SQL procedures, as supported in Oracle and SQL Server.

PETER EISENTRAUT

**Linux cloud hosting starting at 1GB of RAM for \$5/mo** — Get a Linode server up and running in seconds. Simply choose your plan, distro and location and you're ready to deploy your server. Get \$20 credit on a new account.

LINODE CLOUD HOSTING **SPONSORED**

**SiriDB: An Open Source Time Series Database** — An open source time series database with a robust cluster mechanism that can scale on the fly. It can be easily used as a data source for Grafana.

SIRIDB **TOOLS**

**Hadoop 3.0 Likely to Arrive Before Christmas** — ..plus more on what that will involve.

DATANAM

**The Couchbase Ecosystem at LinkedIn** — LinkedIn uses Couchbase as a highly scalable, distributed cache serving over 10 million queries per second.

LINKEDIN ENGINEERING

**Embracing the Future: The Push for Data Modernization Today** — As we begin to produce far more data than we can reliably store, real-time in-memory stream processing will become a key part of any future data system.

DATANAM

**There's One Big Reason That Postgres Can't Kill Oracle** — Postgres is popular but can't unseat Oracle which continues to thrive with its contracts and 'stickiness'.

MATT ASAY

**Data Prep Goes Serverless** — Cloud-based serverless data prep tools are making strong inroads with data analysts seeking new ETL tools looking to wrangle their own data sets.

DATANAM

## **ScaleGrid Announces Shared MongoDB Hosting on Amazon AWS**

SCALEGRID

## **Gain Insights into Database Performance Across Any Stack, at Any Scale** —

Datadog integrates seamlessly with 200+ technologies, including Postgres, MySQL, and MongoDB. [Try it for free.](#)

DATADOG **SPONSORED**

## **Monitoring RDS MySQL Performance Metrics**

SHREE NAIR

## **Deploy a Replicated MongoDB on AWS with Terraform & Ansible**

VINCENT COMPOSIEUX

## **4 Challenges With Containerizing Databases at New Relic**

JOSHUA GALBRAITH

## **Translytical Databases Hit the Ground Running** — SAP, Oracle, Redis Labs, IBM and

DataStax lead the way in this market for now.

DATANAM

## **A Guide for Customer Retention Analysis with SQL** — A great run through of some

moderately complex but useful SQL for analyzing retention data of customers.

LUBA BELOKON

## **Serverless Aurora: What It Means and Why It's The Future of Data** — What Serverless

Aurora is, what it means for serverless developers, and why it may be the future of data.

ALEX DEBRIE

## **Why Old-School PostgreSQL Is So Hip Again**

INFOWORLD

## **GoCD - Open Source Continuous Delivery Server** — A continuous delivery tool supporting

modern infrastructure with elastic on-demand agents and cloud deployments.

GOCD **SPONSORED**
