Database Weekly

Issue 105 — May 19, 2016

FEATURED

OmniDB: An Open Source Web Tool for DB Management — Works with Oracle, MySQL, SQLite, SQL Server, and more, lets you make queries, see visual schemas, interact with tables directly, etc.
OMNIDB **TOOLS**

How to Find a DBA Job (Interview with Brent Ozar) — An SQL Server Radio interview with Brent Ozar about what a DBA needs to know in order to get a job in the modern database world.
MATAN YUNGMAN

7 Handy SQL Scripts for SQL Developers — “a few SQL scripts which have proven to be very useful for my daily job as a SQL developer..”
SOMIT POUDEL

CQRS and Event Sourcing made easy with RavenDB — CQRS enables us to meet a wide range of architectural challenges; achieving scalability, managing complexity & changing business rules. Storing data using the Event Sourcing technique is the only way to never lose data. In this article, we will discuss some alternatives to adopt CQRS & Event Sourcing.

RAVENDB **SPONSORED**

BTrDB: Optimizing Storage System Design for Timeseries Processing — A look at a full time-series DB created with just 4,709 lines of Go code - in a year, it stored 2.1 trillion data points, and supported 119M queries per second in a four-node cluster.

THE MORNING PAPER **TOOLS**

Module Hub: A Marketplace for Redis Modules — Last week we covered how Redis is gaining a loadable module system, and already a central repository for them has appeared.

REDIS LABS **TOOLS**

BigQuery and Dataproc Shine in Independent Big Data Platform Comparison — Big data expert Mark Litwintchik benchmarks Google BigQuery, Hadoop, Spark, Elasticsearch, Presto and Google Cloud Dataproc with interesting results.
GOOGLE CLOUD

How to Add A New Keyword to SQL's Grammar in Postgres — A simple example of some low-level hacking on the Postgres source code.
SVAMI DHYAN NATARAJ

JOBS

[Work on a Better Stack](#) — On Hired, engineers typically get 5+ job offers in 1 week. Find that new opportunity you've been craving and get access to 3,500+ companies instantly.

HIRED.COM

IN BRIEF

[Free Redis Shirt](#) — This month only, deploy Redis on Compose, get a free Redis tshirt. There's no obligation to keep your Redis deployment, but of course we hope you love it as much as you love the shirt.
