Database Weekly

Issue 172 — September 15, 2017

The Weight of Relational Databases: Time for Multi-Model? — A quick thought piece on the increasing role for polyglotism in database systems as needs become more complex.

LUCA OLIVARI

Postgres's Workings in One Picture — An interesting 'infographic' style image showing the various components of Postgres and how they stack together.

ALEXEY LESOVSKY

Data Sheet: Database Performance Monitoring — VividCortex is the best way to improve your database performance, efficiency, and uptime.

VIMDCORTEX **SPONSORED**

Injecting a Chess Engine into Amazon Redshift — Redshift is an SQL-based database with a Postgres-style frontend and curiously you can integrate compiled C code with it as in this extensive example.

MICHAEL BURGE

Database Systems Reading List — Links to a variety of 38 categorized papers on database management systems topics.

JOY ARULRAJ **CODE**

Over 4000 ElasticSearch Servers Found Hosting PoS Malware Files

CATALIN CIMPANU

A Sports School Data Model — The latest in Vertabelo's relational data modelling series.

VERTABELO

A Four-Phased Approach to Building an Optimal Data Warehouse

DATANAM

Partitioning Behavior of DynamoDB

PARTH MODI

Get an intro to MongoDB with our Accelerator Kit — For a limited time, we're making our best resources for learning MongoDB available for free & on demand.

MONGODB **SPONSORED**

How We Optimize Apache Spark Jobs

HENRY HU

Enhancing Relational Models with Graph Processing in SQL Server 2017

TERRY MCCANN **VIDEO**

Bringing DevOps Practices to Database Administrators

CHRIS CHINCHILLA

The Ultimate Guide to Oracle Indexes: Improve Your SQL Skills — Learn all about index types, index scans, when to use each index type, and more in this article.

DATABASE STAR **SPONSORED**

read-mongo-logs: A Tool to Tail Mongo Database Logs

KEVIN BURKE **TOOLS**

Citus 7: Transactions, Framework Integration, and Postgres 10 — Citus extends Postgres with extra sharding features and now has Postgres 10 support.
